Once upon a time there ~~was~~^{were} three
Ducklings, baby Duckling, middle Duckling
and big Duckling. ^{Describe them} They were very noisy!
They lived on a farm which is very
noisy too. They ~~want~~^{wanted} to get to the other
side of the lake with their mum. They
had to cross an old broken tree
which had an sleeping monkey on.

First went baby Duckling. She got across
safely hugging her mum. Next went middle
Duckling. She almost got across, but...
her foot got stuck in the monkey's arm
and baby Duckling helped pull her out.
Finally went big Duckling. But the monkey was

up. So big Duckling desided to quack really loud so he did. It was so loud that the monkey had to hold his large ears and the Duckling walked through his legs to his mum.
